BROWARD COLLEGE HEALTH INFORMATION TECHNOLOGY PROGRAM
ADMISSION MEDICAL HISTORY & PHYSICAL EXAMINATION

In order to participate in the clinical portion of any health science program, the student must complete a Medical History and Physical Examination Form. Admission into the Health Information Technology Program is provisionally based upon acceptance of the approved health evaluation record.

Failure to submit the original form - complete with documentation - may prevent the student from progressing to the clinical portion of the program. Valid verification of immunizations is required for eligibility to attend clinicals at the health care agencies.

Students are responsible for the cost of the physical examination and any related expenses.

Section 1: Student Self-Report of Medical History
This section about past and current health status should be completed by the student **prior** to having the physical examination.

Section 2: Medical History and Physical Examination
The Health Care Examiner will review any documentation the student provides.

Immunization Verification

I. A PPD and/or CXR required annually, within the past 12 months. The PPD result must be documented in millimeters of induration. If a PPD is positive, a chest x ray is required every year. QuantiFERON TB Gold Test is not accepted.

II. A Tdap (Tetanus, Diphtheria, and Pertussis) vaccine is required within 10 years of the date of the examination.

III. A seasonal flu vaccine is required with documentation during flu season.

IV. Measles, Mumps, Rubella, Varicella, titers must be completed to verify immunity. Titers must be completed within 10 years of the date of the examination. All negative results necessitate a vaccination. If the Measles, Mumps, Rubella or Varicella titer is negative, two post-titer MMR or Varicella boosters are required. *A student stating that they have had the disease is NOT acceptable documentation*

V. Hepatitis B titer must be completed within the past ten years. If negative, the Hepatitis series must be completed (0, 1 month, 2 months after the second dose – 6 months after if using the combined Hepatitis A & B vaccine) OR the student can decline.

VI. Results of all laboratory blood tests and diagnostics are required.

VII. Examiner must initial after completing each section.

Health Care Examiner's Statement

This section is to be completed by a Licensed Professional Health Care Examiner (MD, DO, ARNP or PA **only**). All sections must be completed with a signature provided.

The following sections must be reviewed and signed by the student:

Section 3: Release of Information
Section 4: Verification of Compliance with Technical Performance Standards
Section 5: Permission to Render Medical Treatment

Section 1: Student Self Report of Medical History – Please Print

Varicella – Chickenpox – within 10 years		
Date Titer Completed	Attach supporting documentation	Examiner's Initials and date
#1 Date Booster completed for Negative Titer		Examiner's Initials and date
#2 Date Booster completed for Negative Titer		Examiner's Initials and date

Hepatitis B Titer - within 10 years		
Date Titer completed	Results	Examiner's Initials

Hepatitis Series – within 20 years	
#1 Date Booster completed	Examiner's Initials and date
#2 Date Booster completed	Examiner's Initials and date
#3 Date Booster completed	Examiner's Initials and date

I understand that due to my occupational exposure to blood or other potentially infectious materials, I may be at risk of acquiring Hepatitis B virus (HBV) infection. However, I decline Hepatitis B vaccination at this time. I understand that by refusing to take this vaccination, I continue to be at risk of acquiring Hepatitis B.

Student Signature required: **Date:**

Health Care Examiner's Statement

I have verified that the individual I have examined is the individual on this form and that the above tests/vaccinations were performed in this office/laboratory or I have reviewed any documentation relative to the student's immunization record.

Examiner's Name: (Please Print)_____

Signature of Health Care Examiner:_____

License #_____ Phone:_____Date:_____

Section 3: Release of Information

In conformance with 20 U.S.C. 123g (Family Education Rights and Privacy Act) and Section 228.093, Florida Statutes, I authorize Broward College and its agents to release and disclose the information contained in this form, including my immunization record, upon request, to a clinical affiliation site

_____I herein **give** permission to duplicate the requested information and release it to the clinical site.

_____I **do not** give permission to duplicate the requested information and release it to the clinical site.

Student Signature:_____ Date: _____

Section 4: Verification of Compliance with Technical Performance Standards

The Health Science Education has outlined specific Technical Performance Standards that serve to inform students of skills and/or physical/psychological demands necessary for program completion and workplace responsibilities.

After review of the Technical Performance Standards for my program of study (attached):

___ I have determined that I will be able to perform the standards or essential skills listed.

___I have determined that I will be able to perform the standards or essential skills listed but will require reasonable accommodation. I have registered with Disability Services and will arrange to meet with the Associate Dean to determine the accommodation necessary.

Student Signature:_____ Date: _____

Section 5: Permission to Render Medical Treatment

In case of serious illness or accident, I give Broward College or its representative(s) permission to secure medical and/or surgical care to include transportation to a physician or hospital of their choice, examination, medication, and surgery that is considered necessary for my good health. I understand that I am responsible for any cost incurred if not covered by the Health Care Agency Affiliation Contract or by the Health Science accident insurance.

Student Signature:_____ Date: _____

Technical Performance Standards
Health Information Technology Program

The technical performance standards of the Health Science programs outline the expectations and abilities considered essential for student success relative to achieving the level of competency required for graduation. Potential students should carefully review all of the standards as detailed below.

Critical Thinking: Ability sufficient for clinical judgment and to assimilate, within a reasonable time, large amounts of complex, technical and detailed information from a variety of sources.

Conceptual: Ability to function during stressful situations; ability to prioritize multiple tasks, integrate information and make decisions; ability to cope with heavy production schedules; display adaptability; accept responsibility for own behavior.

Interpersonal: Abilities to interact with healthcare professionals, patients, and groups from a variety of cultural and intellectual backgrounds.

Communication: Ability to communicate with healthcare professionals face to face and remotely depending on the setting. Ability to interact effectively with others verbally, non-verbally and in written form. Also, the ability to express oneself verbally in a language that will be understood by a majority of individuals is necessary.

Mobility: Physical abilities sufficient to move from place to place and maneuver in small places including ability to balance on a two-step ladder/stool. Carrying, reaching, and lifting files of 10lbs is frequently required. Moving medical data (paper records) from one location to another is possible only through the stooping, kneeling and reaching.

Motor Skills: Gross and fine motor abilities sufficient to perform data entry, keyboarding, and handle paper records, both large and small. Electronic data entry is frequently required.

Hearing: Auditory ability sufficient to communicate. Responding to physicians, coworkers and other healthcare providers through hearing is necessary in the transmission of patient information.

Visual: Ability sufficient for observation, data entry, and comprehension of three-dimensional relationships and spatial relationships of objects.

Tactile: Ability sufficient for filing, accessing appropriate codes from paper-based records and electronic records.

Ethics: Respect the rights and dignity of all individuals by promoting and protecting the confidentiality and security of health information.
